Positive about Research and Innovation

Centre for Perfect Care Research and Innovation

CONSENT FOR CONTACT

Would you like to know more about what's happening in Research and Innovation?

Would you like to become involved in research or innovation projects that could improve services for you and others in the future?

We know how important it is to work together and you can help shape projects with the experience, skills and knowledge that you bring.

Mersey Care is keen to engage service users and carers in all aspects of research and innovation programmes across the Trust. We would like to:

- Share information about research and innovation
- Improve your involvement in research and innovation

To do this we need to have a register of people who are willing to be contacted about opportunities to be involved or who just want more information about ongoing projects.

If you want to know more, please read on and let us know how you would like to be involved by registering your interest on this form.

All research undertaken in the Trust is reviewed and approved to ensure quality. The range of projects is varied and can include anything from simply completing questionnaires through to testing new therapies, treatments, technology or service redesign.

You can choose up to three levels of involvement:

1. **Participation:**
2. **Collaboration:**
3. **Information:**

Whichever option/s you choose you are only agreeing to receive further information and NOT consenting to actually participate in anything.

If you let us know that you are interested in participation or collaboration you may be contacted by a member of Mersey Care staff. The staff member will fully explain the project to you, answer any questions you may have and then you have time to think about it.

Even after you agree, you can still change your mind at a later date. There will never be any pressure on you and it will never affect the normal care and treatment you receive from Mersey Care.

Under no circumstances will your contact details be shared with anyone outside of the Trust without your prior agreement.

When you return this form your choices will be recorded electronically on your health record (if you are a service user) or on a secure database (if you are a carer/family member). All your information will be held securely, kept confidential and not shared without your consent.

You can change your mind at any time by contacting us via email, phone or writing to us at the address on the last page, We will also contact you every 12 months to check you are still happy with your choices.

Yes, I would like to become more involved in research and innovation projects undertaken at Mersey Care.

You can choose one, two or all three of the following three options.

tick all that apply

<p>Participation: Yes, I would like to be invited to be involved in research or innovation projects as a participant in a project.</p>	
<p>Collaboration: Yes, I would like to be invited to be involved in helping research or innovation projects e.g. as part of a project team; suggesting ideas for new projects; giving feedback on plans; helping to write or review information leaflets; advising how study results are shared; testing out and advising on new products.</p>	
<p>Information: Yes, I would like to receive updates, results and newsletters about what is happening in research and innovation in Mersey Care.</p>
